

THE BALTIC UNIVERSITY PROGRAMME

The Secretariat at Uppsala University

Uppsala, 11 February, 2009

Tomasz Bergier
Coordinator of the Summer Course
Challenges of Sustainable Development in Poland
Centrum Rozwiazan Systemowych
/The Center for System Solutions/
Wroclaw, Poland

The goal of this letter is to support the organizers of the Challenges of Sustainable Development project in Poland” and to declare the involvement of the Baltic University Programme (BUP) in the preparation and realization of this initiative.

The Baltic University Programme (BUP) is a network of about 225 universities and other institutes of higher learning throughout the Baltic Sea region. The network is coordinated by the Baltic University Programme Secretariat a part of Uppsala Centre for Sustainable Development (Uppsala CSD) at Uppsala University, Sweden.

The Programme focuses on questions of sustainable development, environmental protection, and democracy in the Baltic Sea region. The aim is to support the key role that universities play in a democratic, peaceful and sustainable development. This is achieved by developing university courses, and by participation in projects in cooperation with authorities, municipalities and others.

Within the cooperation with the ChoSD organizers the Baltic University Programme declares to commit the following activities:

- To support the ChoSD organizers in planning and organizing the project, especially by sharing the BUP wide knowledge and expertise in sustainable development and education;
- To actively promote ChoSD project among all BUP partner organizations and supporters;
- To help to recruit the high quality course participants from the Baltic basin countries;
- To popularize the project effects among the BUP network members (particularly publications and case-studies analyses realized within the project);
- To contact ChoSD organizers with the top sustainability experts to engage them as the ‘virtual’ consultants for the practical projects which are going to be realized within the ChoSD course (‘Sustainable Business’ and ‘Sustainable Local Development’ projects);
- To monitor and assess the quality of the didactic process and products (publications, short movies, games, www portal);
- To assist and support organizers in applying for external funds to finance the project.

Sincerely,

Christine Jakobsson, Director
